BALTIMORE
1801 PORTER STREET

OUR PARTNERS: FOX ARCHITECTS, CUSHMAN & WAKEFIELD, KINSLEY CONSTRUCTION, GHT LIMITED, AND VISION TECHNOLOGIES

MOI has been serving the Baltimore community for over 35 years, transforming interior spaces to reflect our clients' culture, improve efficiencies, and optimize functionality. Rooted in the Baltimore community, we are dedicated to helping and improving our home in a multitude of ways. Highlighting this connection to the community was imperative in the design of our new headquarters. Baltimore-centric graphics brand the office throughout, providing a sense of place for visitors and staff alike. The design of our new headquarters enables MOI to pivot between a corporate office and a public showroom effortlessly, with flexibility thoughtfully incorporated throughout the space. The result is a custom-tailored solution for our organization, firmly rooted in the surrounding neighborhood through design. Our team is dedicated to providing a place for organizations to gather, collaborate, and impact the local community.
