Regional Product Councils

What is a Regional Product Council?

A Regional Product Council (RPC) provides a multi-disciplinary forum for information exchange and the sharing of best practices among mid- and senior-level members who work in a particular industry sector. Members will have the chance to interact with like-minded professionals in the ULI East Central Region (ULI District Councils in Cincinnati, Cleveland, Columbus, Indiana, Kentucky, and Pittsburgh).

Regional Product Council Topic

The ULI East Central Regional Product Council 2.0 will focus on Public/Private Partnerships in Mixed-Use Development.

The urban core has become an increasingly attractive location of choice in each of the ULI East Central Region District Council areas. RPC discussions will center on how current demographic shifts and preferences for an urban, walkable environment will affect development patterns. These patterns include infill development, adaptive use of historic and obsolete buildings, and creative urban housing, retail, and mixed-use developments.

Application Process

- Applications will be accepted through June 26, 2017, and will be reviewed by a regional committee.
- Applicants will be notified of acceptance by July 10, 2017.
- The first meeting of the RPC will be held this fall at one of the regional cities and will include tours of local urban infill/mixed-use projects.

Member Expectations

- **Open, honest exchange of specific information and experience:** Members participate openly and honestly, sharing specific, detailed information and experience from their real estate practice.
- **Confidentiality:** Confidentiality is the foundation for open and honest sharing of detailed information and experience.
- **No self-promotion:** Presentations and discussions are aimed at delivering real take-home value.
- **Recruit the best and the brightest:** Innovative leaders, both ULI members and nonmembers, are invited to participate as guests. Members identify ways to continually add value to the conversation and make an impact in the community.
- **Active participation and contribution:** Because each RPC member will be chosen based on his or her unique background and experience, members are expected to be active participants and contributors in all RPC discussions.
