As members of ULI, we represent every profession in the real estate development and land use industry.

We are developers, investors, brokers, advisers, architects, attorneys, engineers, planners, and public officials.

We work in residential and commercial real estate, finance, planning, energy, transportation, government, and at nonprofits and universities. We are at all stages in our careers, from just starting out to being industry leaders, and we are located throughout the world.

What we share is a commitment to exchanging ideas and experiences, to learning best practices from each other, and to working together to create thriving communities worldwide.
Why we belong.

We are proud to be members of ULI, a prestigious global nonprofit, nonpartisan research and education organization founded in 1936.

We highly value the ULI network; there is no better organization for making connections that lead to business deals. The information ULI provides is high quality, unbiased, and helps us stay on top of our game.

What sets ULI apart is its diverse mix of real estate and land use leaders and policy makers, as well as the culture of sharing both what works and what doesn’t, and the best thinking on what’s next for the real estate development and land use industry and our communities.

We support ULI’s mission to provide leadership in the responsible use of land and in creating and sustaining thriving communities worldwide.
