## **2019 Curtner Leadership Program Agenda**

### **Thursday April 25th**

### **8:30 am – 4:30 pm**

**LOCATION:** SIDEWALK LABS, 307 LAKESHORE BLVD. EAST

### **SESSION 7: EXPECTATIONS FOR UNLOCKING CREATIVITY THROUGH DESIGN**

Paul Bedford will kick off the session with a talk about his own experience over 50 years in getting new ideas and approaches implemented. This last session in the program represents an opportunity for the Teams to translate their best ideas and strategies from the February and March sessions into physical designs. It will be a combination of presenters from Sidewalk Labs and others in the morning and team workshops in the afternoon.

To help crystallize the thinking, a variety of experts from Sidewalk Labs will share their experience with creativity, innovation and challenges as they develop a Master Development Plan for the 12 acres of public land on the waterfront known as Quayside. Lessons for Mount Dennis will be most valuable.

The key task for Teams will be to collect their learnings over the entire program and translate them into physical design concepts including bold ideas, economic development strategies and proposed changes to current regulations that will form the basis of the Team presentations to the Mount Dennis Community on Wednesday May 21. Well known Toronto architects and urban designers will be available in the afternoon to meet with each Team to provide feedback.

### **AGENDA**

**8:30 am - 9:00 am: Coffee and Continental Breakfast**

**9:00 am - 9:15 am: WELCOME AND INTRODUCTIONS (Richard Joy and Paul Bedford)**
