

Fran West has been working for the City of Charlotte since July 2016. She joined the Economic Development team in September 2018 where she leads business recruitment efforts and transformative development projects under Assistant City Manager, Tracy Dodson. Prior to joining Economic Development, she worked in Engineering and Property Management managing the South Park and Beatties Ford Comprehensive Neighborhood Improvement Projects.

Fran has extensive experience in diverse aspects of real estate development. Prior to joining the City of Charlotte, Fran led the design and construction of new facilities and renovations for the University of Tennessee Knoxville. Before joining the University of Tennessee, Fran worked for Kimley-Horn and Associates managing transportation, land development and multi-discipline infrastructure projects throughout the southeast.

Fran is a licensed engineer and earned her bachelor's degree in civil engineering from Clemson University.
