

Michal Williams

RPM Heavy Civil Project Manager

Chicago Transit Authority

Michal Williams was born and raised in Chicago IL. She obtained a Bachelors of Architecture with a minor in Construction Management. Prior to completing her bachelor's program, she interned with a local General Contractor focusing mainly on small retail build outs.

Ms. Williams' career has primarily been focused on Heavy Civil Construction. She worked as the field engineer managing the structural steel and Chicago Transit Authority (CTA) coordination on the Wells Street Bascule Bridge Renovation project for the Walsh II in ONE Joint Venture. She also has worked as a field engineer managing the Chicago Department of Transportation (CDOT)'s Menu Program. Most recently she completed the CTA 95th Terminal Improvement Project as a project manager focusing on coordinating the structural steel for (2) bus terminals and (4) bridges for the Paschen Milhouse Joint Venture.

Currently, Ms. Williams is working as the Heavy Civil Project Manager for the CTA's Red and Purple Modernization (RPM) Phase One Project.
