

SUSAN UHLARIK

Project Executive | McShane Construction Company

Susan is an experienced professional with 20+ years of design/build and general construction experience and 10+ dedicated years of project management services for McShane Construction Company. She offers seasoned expertise in serving the construction needs of sizable corporate and national accounts. Her portfolio of work includes an array of project types, with a heavy emphasis on multi-family residences, highly customized build-to-suits, office buildings, corporate headquarters, office/warehouses and industrial facilities. As Project Executive, she is responsible for leading a team of construction professionals in the attainment and execution of assignments. Susan is highly regarded for utilizing an array of assets to provide best-in-class services to McShane clients. She works closely with her project team as well as outside consultants, architects and owners to ensure utmost satisfaction with McShane Construction's comprehensive services package.
