

PRASAN KALE

Co-Founder & Chief Executive Officer | Rise Buildings

Prasan Kale's extensive experience in the real estate industry working with and alongside owners, operators, developers, and asset managers has given him a unique insight into creating operational efficiencies and occupant experiences in buildings. Over the course of his career, he has had the opportunity to perform in development roles on projects ranging from the iconic 90-story Waterview Tower, 60-story Elysian Hotel and Private Residences, 3,600-unit master-planned Riverline development in the heart of Chicago, to a 2,700-acre master-planned island development in the Caribbean, and several notable urban multifamily high-rise developments.

Previously, he managed project and property operations on a 7MM square foot portfolio of commercial office, multifamily, and retail assets. As an avid technologist and innovator, Prasan has leveraged his electrical and computer engineering background and real estate roots into a fast-growing property operations and occupant experience platform called Rise Buildings. Rise is a mobile-first technology solution for properties that streamlines the end-user experience while driving operational efficiencies and creating value for all stakeholders.
