

## ZACK LAMP

*Vice President | HKS*

Zack Lamp is a Senior Designer at HKS. He is a business development leader in the Hospitality practice for the firm's central region, developing pursuits and strategies as a seller-doer. In 2019, he was selected for Building Design + Construction's 40 Under 40. Zack values character, purpose and relationships, and is involved in many volunteer settings.

Zack believes architecture is the art and science of designing buildings that positively influence our communities and that it is created when an idea is physically constructed into a harmonious built form. Zack takes his role in designing architecture seriously, knowing that the quality of spaces affect the experience and wellbeing of each guest. Primarily focused on hospitality, commercial and mixed-use projects, Zack has over a decade of experience in a multitude of architectural disciplines, including conceptual design, master planning, schematic design and the interface of design development with construction documents. Zack has contributed to HKS' international design portfolio by participating in a number of design competitions and projects.

Zack got his Bachelor of Science in Architecture, Texas Tech University and his Master of Architecture, University of Texas at Arlington. He is LEED Accredited Professional, a Building Design + Construction Associate Member, as well as a member of American Institute of Architects.
