

Access the collective, global knowledge of ULI and its members anytime through the 10,000+ pieces of content and ideas discoverable on the all-new Knowledge Finder

Search by Topic

Keywords

The powerful insight search engine can now search for keywords across all content types and within documents and PDFs. The predictive engine uses artificial intelligence and machine learning to discover the most relevant results.

Design & Planning

Study the logical, compelling, technical, and political practices concerned with designing and planning real estate developments.

Development

Delve into various real estate development activities ranging from the acquisition, renovation, and re-release of existing buildings to the purchase of raw land and the sale of improved parcels to others.

Finance & Investment

Analyze the broad methods of real estate investing, each unique on its own merit, with suitability that is dependent to individual investor preferences.

Industry Sectors

Examine the many subdivisions of commercial real estate. Even as these delineations become blurred by the increased application of mixed uses, their specializations remain informative.

Market Trends

Investigate the shifts in product supply and consumer demand over time by evaluating topics including emerging trends, new and disruptive technology, and shared economies

Public Sector

Explore topics such as regulations and zoning, public officials, nonprofit stakeholders, public and private partnerships, and real estate law

Search by Content

Advisory Services & Technical Assistance Panel Reports

Diverse member experts discuss real estate and land use challenges, providing unbiased input and practical solutions. TAPs differ by leveraging local expertise to address relevant issues

Emerging Trends in Real Estate®

An annual series of trends and forecast publications from leading real estate executives in the Americas, Europe, and the Asia Pacific region

Research Reports

A collection of data and analysis focused through ULI's Centers and Initiatives to help land use leaders anticipate emerging trends and issues and explore new approaches for creative solutions
