MESSAGE FROM THE CHAIR

It is with great pleasure that I welcome you to our 2nd annual *Meet the Chiefs* gala for the professional land use community. We are looking forward to a fantastic evening filled with lively dialogue as we launch an exciting new chapter for ULI Toronto: *Our 'Electric Cities' initiative*.

Founded in 1936, The Urban Land Institute ('ULI') provides leadership in the responsible use of land and in creating and sustaining thriving communities worldwide. As one of 75 District Councils within the ULI network, ULI Toronto carries forward that mission by serving the Greater Toronto Region's public and private sector community. As a nonpartisan organization, ULI is recognized as one of the most respected and widely quoted sources of objective information on urban planning, growth and development.

Electric Cities, the focal point for this evening's event, is a multi-year initiative that will concentrate on the intersection of placemaking, mobility, and technology from the community perspective. It's about leveraging our multi-disciplinary expertise, international network of real estate leaders, and our commitment to the long-term time horizon to advance the responsible use of land in our region.

Electric Cities is putting the unique interests and needs of our region and its communities first. Creating a healthy community requires a city to focus its attention on collaboration. Tonight, I extend my sincere thanks to the participation of our public sector professional planners, and to our event and table sponsors for providing this opportunity to meet and exchange ideas.

Meet the Chiefs is yet another ULI Toronto opportunity to bring smart people together to shape the future of our City.

We thank you for helping to make this such an important milestone moment for our organization.

With my warmest wishes,

A handwritten signature in blue ink, appearing to read 'Rob Spanier', written over a light blue rectangular background.

Rob Spanier
Chair, ULI Toronto

ULI Urban Land
Institute
Women's Leadership Initiative

The Urban Land Institute is pleased to announce the creation of the ULI Toronto Legacy Fund.

This fund will honour the legacies of regional city builders through philanthropy.

Brian L. Curtner
1951-2015

We are pleased to launch this Legacy Fund with its first honoree, Brian L. Curtner.

In memory of one of its founding partners, Quadrangle Architects will provide yearly under-35 ULI Associate Memberships for twenty emerging leaders in Brian Curtner's name, which will be presented to the recipients at an annual event hosted by Quadrangle.

Brian L. Curtner was a graduate of the Architectural Association School of Architecture in London, England. As one of the founding partners of Quadrangle Architects Limited thirty years ago, Brian brought his creative vision and commitment to excellence to all of his projects.

Brian has been widely recognized for exemplary designs that include the award-winning BMW showroom at the foot of the Don Valley Parkway, Corus Entertainment's state-of-the-art headquarters on Toronto's waterfront and 130 Bloor Street West in Yorkville — all innovative responses to complex urban challenges.

Equally important to Brian's projects was his advocacy for young leadership and strong, long-term working relationships and connections.
