

Amazon HQ2 at Metropolitan Park

14th Street and Eads • Arlington, VA 22202

When Amazon committed to building its second headquarters in Arlington, Virginia, the company envisioned a deeply sustainable campus that would meet the needs of its employees, while integrating into and giving back to the surrounding neighborhood. Phase 1 of Amazon's HQ2 establishes 2.1 million square feet of office, retail, and public park space across 6.2 acres. At every turn, curated moments of discovery enrich an inclusive, accessible environment that is as joyful to experience as it is high performing for the planet.
