

# Job Posting: Martin Architectural Group Seeks Project Manager and Architectural Designers

## **Who We Seek:**

The Martin Architectural Group has immediate full-time positions for a project manager and two architectural designers with experience on design through construction documentation. These positions would work from our Baltimore office, located at 300 West Pratt Street, within the heart of the city. The team will work on a large number of projects, primarily on mixed-use, commercial projects, Transit Oriented Design, and multi-family residential projects. Our firm has extensive clientele in the Maryland, Washington DC, and Virginia area, and creating an local studio to serve them is a major opportunity for the right ambitious candidates.

## **What Do The Positions Entail?**

- Initial concepts of multiple projects each month
- Direct involvement with client and architectural teams
- Zoning review for each project for applicable uses
- Perspectives created by hand or computer
- Site planning design
- Conceptual floor plans, elevations, sections
- Direction with architectural staff for design implementation
- Design development documentation
- Construction documentation
- Coordination with multiple consultant teams
