

My experience with ULI has been a huge learning experience from all the events to all the people that ULI works with. One of the biggest helps I have gotten is from the mentors; I have been able to learn more on how I can advance in my career in real estate. Coming from a university that doesn't have programs dedicated to real estate or have the necessary connections getting into ULI has been the best help I have received and I hope to continue this next year.
