

The Etkin Scholars program through ULI gave me a complete 360 understanding of the world of real estate. Educational and fun panel discussions introduced me to areas of real estate that I wasn't even aware of. Industry events allowed me to explore roles that I was interested in. And I've been able to grow my professional network, adding key individuals that have provided invaluable guidance for my career. I'm extremely grateful for being able to participate in this program and I highly suggest students looking to grow their career in RE, get involved in ULI, and apply for the Etkins Scholars Program.
