## SHAPING THE FUTURE

Our mission is to shape the future of the built environment for transformative impact in communities worldwide. ULI Cincinnati accomplishes this mission through **organizational leadership, member engagement, community outreach, and regional influence.**

## YOUR SPONSORSHIP IMPACT

**CONNECTION.** Through our 40+ programs per year, our member engagement is among the highest of 57 ULI District Councils. This is driving up real estate industry **diversity, education, and community initiatives.**

**DIVERSITY & DEVELOPMENT.** The **Real Estate Accelerator Lab (REAL)** meaningfully expands diversity of race, ethnicity and gender in commercial real estate and development. We've created an inclusive, top-notch classroom experience with mentors assigned to each participant for ongoing guidance. Scholarships are given to over 50% of students.

**UNITING LEADERS.** Leaders and decision-makers come together from the public and private sectors to move ULI Cincinnati's mission forward. From this, our affordable housing program evolved into "**Housing our Future**", the strategic housing plan adopted by the City of Cincinnati and Hamilton County. We also developed a roadmap of best-in-class principles for smart, equitable, sustainable strategies supporting the creation of **transit oriented development policies** that promote growth in the City of Cincinnati and the region, and provide recommendations to engage the neighborhoods and people where development occurs.

**BEST PRACTICES.** We have multiple outlets to share our best practices with members locally and through our **regional connections.** Specific groups include our **Young Leaders Group**, focused on developing professionals under 35, and our **Women's Leadership Initiative** that works to raise the visibility and number of women leaders in ULI and the real estate industry.

**GIVING BACK.** Our **Technical Assistance Panels (TAPs)** connect land use and real estate experts to communities in the Greater Cincinnati area with development and planning challenges.
