

ULI Philadelphia

## **Life Sciences in the Neighborhood - Community and Economic Benefits**

October 19, 2022, 8:30 – 10:30 AM EST

### **About the Event**

As Life Science uses extend into “post” industrial neighborhoods, what community and economic benefits can be accrued for residents and communities? Join us for back to back fireside chats on location, exploring the benefits, and sometimes challenges, as we see Life Science uses extend outward from University City into residential neighborhoods like Nicetown-Tioga, with an industrial past.

#### **Fireside Chat #1: Return of Industry**

- Michael Davis, Founding Partner, Plymouth Group
- Council Member Derek Green

#### **Fireside Chat #2: Developing a Local Workforce**

- Dr. Kristy Shuda McGuire, Dean of Biomedical Studies, Wistar
- Cait Garozzo, Executive Director, West Philadelphia Skills Initiative

Following to the two discussions, attendees are invited to tour the Budd Bioworks campus to witness firsthand the return of industry to what was once considered a post industrious neighborhood.

### **Registration & Additional Information**
