

# URBAN RESILIENCE FORUM

OCTOBER 19, 2023 | CENTER FOR ARCHITECTURE & DESIGN

Hurricane Ida's record flooding in 2021, summer of 2023 heat records, and the record for worst urban air quality in the world on June 8, 2023: these events demonstrate that climate change is on Philadelphia's doorstep. Join **AIA Philadelphia** and **ULI Philadelphia** for a series of conversations exploring urban resilience across multiple scales, from tactical interventions to financing building retrofits to regional resilient mobility solutions.
