

As Managing Principal in SOM's Hong Kong office, Joyce Lam has more than 20 years of experience working on commercial, hospitality, residential, and mixed-use projects in large international architectural firms. Exemplifying SOM's collaborative and interdisciplinary approach, Lam works directly with designers, technical leaders, and engineers to envision and deliver innovative design solutions. With demonstrated success in Hong Kong, Southeast Asia, and the United States, Lam specializes in managing complex projects across China, from skyscrapers to mixed-use developments.

Lam, who has been based in SOM's Hong Kong office since 2017, first joined the firm in 2001 as a designer in Chicago. Among her notable projects are the Star River Tower in Guangzhou, the ASEAN Tower in Nanning, and the WeBank Headquarters in Shenzhen.
