

YOUR 2023 DOLLARS AT WORK

WHERE THE FUTURE IS BUILT

CONNECT

- Across Sectors. ULI Atlanta connected leaders across the industry through Center for Leadership's 14th Class adding 465 alumni to the program to date.
- Through Educational Programs. Elevated thought leadership on ULI's three mission commitments related to housing, sustainability and ESG, and DEI through programs, project tours, and small group gatherings.
- Through Signature Events. ULI Atlanta hosted its 27th Awards for Excellence program recognizing 17 outstanding real estate development projects and one individual that exemplify ULI's mission to shape the future of cities.
- Across Geographies. Leveraged opportunities to scale ULI Atlanta's statewide presence through a **Technical Assistance Programs (TAPs) with Rabun Co, GA** and facilitating UrbanPlan for Community Leaders with the **Young Gamechangers program in Columbus, GA**. Continued partnership with ULI Charlotte through the annual Capital Markets Exchange and hosting the first Georgia + Carolinas reception at ULI's Fall Meeting in Dallas.
- Cultivated visibility opportunities for ULI members and programs on ULI Atlanta's newly launched Instagram, through articles on ULI Atlanta's blog and through the monthly newsletter.

INSPIRE

- Launched ULI Atlanta's new strategic plan by leveraging member leadership and member engagement to drive the plan, which will serve as the bedrock of Atlanta's programmatic goals over the next three years.
- Shared collective knowledge & experiences through programs, project tours, leadership workshops, and mentorship programs (such as YLG's Mentorship Program). Hosted events on topics that elevated sustainable and equitable development by bringing out of market experts to discuss housing innovations happening in their communities, and unpacking sustainability efforts through a smart cities and buildings event focused on the technology shaping and influencing the built environment.
- Applied ULI research throughout ULI Atlanta's events and programming on infrastructure, public-private partnerships, economic trends, ESG, affordable and attainable housing, and building healthy places.

LEAD

- Elevated diversity and inclusion to ensure we are better reflecting the communities we serve through the strategic plan of the DEI Committee and by amplifying the work of the Women's Leadership Initiative (WLI) and the WLI ChangeMakers program (formerly called The Leaders).
- Educated the next generation of diverse leaders by participating in a second year of the Etkin Scholars program designed to introduce college and university students with a real estate interest and degree focus to the resources available through ULI membership while integrating those students into the ULI path of learning.
- Provided leadership around decarbonization solutions through the Net Zero Imperative where six impactful mTAPs projects evaluated different aspects of building decarbonization efforts across the Atlanta region by partnering with the City of Alpharetta, City of Tucker, Livable Buckhead, Gwinnett Place CID, and Mercy Housing.
- Expanded annual sponsorship to include **DEI support**, allowing ULI Atlanta to raise flexible, unrestricted dollars to support local DEI efforts and hosted DevelUP conference to provide underrepresented developers the resources they need to excel in the industry.
