About ULI – the Urban Land Institute

Mission
To provide leadership in the responsible use of land and in creating and sustaining thriving communities worldwide. ULI is a research and education institution with nearly 36,000 members worldwide representing the entire spectrum of land use and real estate development disciplines, working in private enterprise and public service.

ULI at the local level
Boston/New England District Council covers nearly all of New England with over 1,400 Members—developers, architects, planners, public officials, financiers, students, etc.
Technical Assistance Panels (TAPs)

Maynard, MA
ULI Boston/New England is committed to supporting communities in making sound land use decisions and creating better places. A TAP brings together a group of ULI members with a range of professional expertise to provide focused, collaborative consultation to a local government or qualifying non-profit organization.

This TAP
- This panel looked at a range of options from an unbiased perspective.
- Panelists include public and private sector experts in the fields of architecture, planning, and design
- Panelists have donated their time
- Final Deliverable – Written report (12 weeks) will be available at http://boston.uli.org
TAP Impact Research Project

- Out of 80% of ULI Boston TAP communities that recently responded to our TAP Impact research survey 81% said their municipal planning and economic development strategies were positively affected by the TAP process
- 69% said the redevelopment of a key municipal asset was influenced by the TAP recommendations
- More information will be released in January 2020 with completed report

*Having a conceptual document as a preliminary roadmap was critical. We were able to parlay off of that to be able to show officials the opportunity was there. I think the TAP document really did help us in that regard quite a bit.* - Bill Pillsbury, Haverhill Econ. and Planning Development Director

Panel Assignment: Address These Questions
1. What strategies can be implemented to encourage private investment to supplement the Town’s targeted place-making initiatives in the Basin, such as: the permitting of outdoor dining; enhanced pedestrian features; VMP improvements and the offering of “Business Enhancement Environment Program” (BEEP) grants?

2. How can the Town activate the Basin as an arts and culture destination to further the goals of the Cultural District?

3. How can the Town balance the preservation of parking while creating a more pedestrian-friendly environment and reducing impervious surface in the Basin?

What did we hear?
Assets and Opportunities

- Naylor Court is heart of Maynard
- Town is attracting new residents
- Strong arts & culture community
  - Active calendar: Holiday Market, Sip & Stroll, Maynard Fest
- Regional downtown for surrounding communities
- Walkable downtown
- Bike trail
- Live/work/play potential
Challenges

▪ Pedestrian loop is incomplete
▪ Cultural assets are physically disconnected from Main/Nason St activities
▪ “Basin” disconnected from park
▪ Lack of wayfinding and lighting
  ▪ Unsafe for pedestrians
▪ Retail and restaurant functions
  ▪ deliveries and dumpsters
  ▪ unwelcoming commercial frontages

Existing Parking Conditions

Existing Parking Regulations
- 5 Hour Meter (170)
- 2 Hour (7am-9pm, No P 2-dam) (26)
- 2 Hour (Mon-Sat) (10)
- Handicap (14)
- 15 Min (8)
- Unmonitored (33)
- Municipal Parking Lot (217)
- Private Parking Lot (116)
During the weekday, on-street and off-street parking spaces diverge at 2PM. Off-street lots have more availability versus on-street.

Weekend parking utilization continues to climb as the day goes on. Not surprising given restaurants, arts and culture, and experience-based businesses in the Downtown area.

Concept Plan
Recommendations – Short Term

- Engage community in rebranding area
- Convert north parking row and drive aisle to temporary park space
  - Colored pavement treatments, planters, string lighting, etc.
- Build on existing placemaking activities:
  - Food trucks
  - Café seating
  - Bocci, Cornholing
  - Beer garden
  - Add art to crosswalks and public space
- Parklets on Main & Nason Sts
- Consider forming Main Streets organization
Recommendations – Mid-Term

- “Basin” parking lot improvements:
  - Widen sidewalks, add lighting
  - Improve internal “Basin” pedestrian paths
  - Expand and improve wayfinding to satellite parking and rail trail
  - Centralize dumpsters – work with new hotel
  - Murals

- Further expand temporary park with additional parking row
- Add more electric charging stations

Example: Wynwood Walls, Miami
Recommendations - Long Term

- Make park expansion permanent
  - Landscaped slope and steps down to lower park
  - Landscape/hardscape lower park area
- Permeable paving treatments

Example: High Line in NYC
Recommendations – **Bold Vision**

- Replace remainder of “Basin” with Piazza/Park
