Role and Relevant experience

Renee is equally as passionate about serving clients as she is raising her children and Chocolate Lab babies. With more than 20 years of experience providing audit, attest and accounting services in the financial services industry, she has honed her experience working with public and private entities alike, dealing with SEC reporting, SOX compliance, industry-specific accounting and financial reporting, investment and development activities and commercial and consumer lending businesses. She has served numerous public financial services clients, as well as private real estate investment trusts, private equity funds, commercial real estate finance entities, and other real related entities. She has led services related to initial public offerings, divestitures, and other capital market transactions.

Renee began her career at PwC in Miami, Florida, where she served private and public companies engaged in a wide array of financial services, with a particular focus on real estate and commercial and consumer lending. She has since worked with a variety of the firm's clients in South Florida, NY and Southern California and has built strong, trust-based relationships domestically and throughout Europe and Asia.

In addition to accounting, audit and valuation client-service experience, Renee focuses on the firm's learning and development efforts and with youth in the community. As a mother, she's passionate about getting outdoors with her kids and dogs, continuing her passion of endurance swimming and reading crime novels when not on the go.

Education

Renee holds a BS in Accounting from the McDonough School of Business at Georgetown University.
