

Shailesh is a devoted professional with over 30 years of experience. As the project lead, he is responsible for both the architectural design phases and technical efforts of the project. Shailesh's architectural responsibilities include design development and maintaining design integrity throughout the project. His technical responsibilities include coordination with engineering consultants, city and regulatory interface, and preparation of construction documents. Shailesh has worked on a variety of project types including retail, residential, institutional, commercial, and sports that range from as large as 1.1 million square feet to as small as 20,000 square feet. He is currently working on a mixed use project for the Hines group in San Diego, CA.
