

READ THE CITY - A NORTH LOOP NEIGHBORHOOD WALKING TOUR

How do zoning codes, historical uses, financing requirements, and climate shape our built environment?

The ULI MN Young Leaders Group invites you to join John Slack and Peter Brown on a walking tour of the North Loop in Minneapolis. Get a firsthand look at how, and why, this vibrant neighborhood has developed.

The tour will answer some of the following questions and you are encouraged to bring your own!

- What did the North Loop look like 10, 15, 20 years ago?
- What catalyzed the re-development of the area?
- Why is it mostly multi-family?
- How does the neighborhood accommodate the Bassett Creek Tunnel?
- Why are the blocks so large between Washington Ave and the river?
- Why can't I find a place to park?

DATE/TIME	TOUR LOCATION	REGISTRATION
AUGUST 18, 2020 10:30AM - 12:00PM CDT In-Person, Outdoors Rain or Shine	North Loop Neighborhood Minneapolis, MN 55401 The tour starting point will be shared with registrants.	ONLY 10 SPOTS AVAILABLE! \$20 Young Leader and Student ULI Members Only

TOUR GUIDE LEADERS

John Slack, PLA, OALA, ASLA, LEED AP,
Urban Planner at Perkins and Will
and former Vice President of the
City of Minneapolis Planning
Commission

Having traveled to every US state except Alaska with his military family, John grew up fascinated by how people use urban spaces, and how buildings interface with them.

A long-term mentor with ULI and city volunteer, John seeks to serve his broader community and believes in the strength of the relationships to get things accomplished. He knows he's successfully engaged his audience when he starts to see a shift in their mindset - from 'we can't' to 'I hadn't considered that before.'

Peter Brown, AIA, AICP, PHD
Architect, Planner, Development
Consultant, Author, UMN Instructor

Peter Hende Brown is a licensed architect and certified planner and over the past 30 years has worked in architecture, government administration, real estate development, and as an independent consultant, serving in the roles of architect, owner, developer, and owner's representative. He has worked for public, private, and nonprofit clients.

His research is focused on understanding urban redevelopment projects from many perspectives, including those of the city official, politician, planner, property owner, developer, user, and neighbor.
