

ULI Minnesota's Virtual Advisory Services

The Urban Land Institute has a long history of providing unbiased, market-based solutions and best practice advice on land use and building resilient and competitive communities.

Never before has it been more critical for decision makers to understand the range of factors influencing their City's economic future, from the COVID-19 precautions, long-term need for economic recovery, and the growing call to address entrenched inequalities. At ULI Minnesota, we offer two advisory service options to policy leaders. Each option engages ULI Minnesota real estate professionals who volunteer their time and talent to contribute their wisdom and expertise.

Navigating Your Competitive Future

Navigating Your Competitive Future ("NCF") Virtual is a one hour, interactive workshop with policy leaders and volunteer real estate professionals to focus on the current challenges of development and redevelopment. NCF is designed to foster a meaningful dialogue across the public and private sectors to strengthen a mutual understanding of today's economic reality, market preferences and demographic shifts.

Technical Assistance Panel

Technical Assistance Panels (TAPs) bring an unbiased, interdisciplinary and market based perspective to your specific development/land use challenge or policy issue. Ranging from one half to three days, the workshop is preceded by analysis of background information provided by the sponsor, planning sessions, community interviews, and site tours. The panel's findings and recommendations are documented in a written report.
