The 2024 John A. Myers Award for Leadership in Urban Excellence Presented to Dale Dekker – May 10, 2024

Sponsorship & Support

In 2017, The John A. Myers Award for Leadership in Urban Excellence was established by ULI New Mexico to honor and recognize exceptional individuals who have made a significant impact on Albuquerque's physical environment, and whose career demonstrates a commitment to the highest standards of responsible development.

The John A. Myers Award for Leadership in Urban Excellence Endowment Fund was established at the Albuquerque Community Foundation as a permanent fund, with an initial deposit of \$25,000 to ensure the sustainability of the award and associated programs.

John A. Myers
2017 RECIPIENT

Bob Murphy
2018 RECIPIENT

The first award was presented on January 27, 2017, and honored its namesake, John A. Myers, whose life's work as a real estate attorney, advisor, community activist and catalyst for progress, and whose knowledge, wisdom and genuine concern for fair and equitable outcomes, have made some of the city's most significant development projects possible.

In 2018, Bob Murphy was honored as the second, and well-deserved recipient of this meaningful and prestigious award.

Now, the ULI New Mexico Board of Directors is proud to announce its third, and truly worthy honoree of the John A. Myers Award for Leadership in Urban Excellence, Dale Dekker.

When the award was established seven years ago, it was intended to not only look back at an exceptional individual's past accomplishments and contributions, but also to inspire thoughtful, visionary, and conscientious individuals to rise up to the high standard that John, Bob and Dale exemplify, and to be a force for positive change as our city grows, matures, and adapts to new challenges and opportunities.

By establishing this aspirational award, ULI New Mexico expects to build on the impact of this event, not only with the aforementioned annual honor and prize, but with other awards, scholarships and programs that will inspire and catalyze others to work on making Albuquerque a better place to live, work and play. A portion of the proceeds will fund such programs.

The award dinner will be Friday, May 10, 2024 at the Albuquerque Museum.

We invite you to join us in honoring Dale Dekker and his lifetime dedication to our city, through financial support of this event. Your generosity and attendance at the Awards Dinner, will help fund these aligned, mission-based programs. Your financial support will be instrumental in setting an aspirational course for positive and progressive design, planning and development in Albuquerque for years to come.

Thank you.

Dale Dekker

FOUNDING PRINCIPAL / BRAND AMBASSADOR

DEKKER / PERICH / SABATINI

Why do cities exist? What drives their growth? What can we do to better our communities, and position our city and state for future challenges and opportunities? These are the kinds of questions that drive Dale Dekker to pursue new avenues for development and discovery. With extensive experience in both architecture and planning, he has combined his deep understanding of design with an entrepreneur's big picture outlook. His work spans one-of-a-kind research facilities, award-winning schools, and large-scale master-plans.

As the founding principal of Dekker/Perich/Sabatini, Dale's commitment to building better communities is unparalleled. Having established the firm's solid foundation, his focus has turned to helping guide DPS to evolve to meet future needs and opportunities. Through research and determination, he turns his curiosity and concern for sustainable development, thriving communities, and progressive land use, into business growth and opportunities. Throughout his amazing career, he has proven that relationships are pivotal to creating quality places, and has brought his extensive network together to manifest bold ideas.

Dale continues to be gratified by enabling his partners, employees, colleagues and collaborators to achieve their absolute best. Additionally, his community work has provided another important avenue for him to connect with others, exchange knowledge, and contribute to the greater good. He enjoys working (and playing) with a diverse group of leaders who share his motivation to strengthen our community.

His aptitude for multiple angles of design, architecture, and business has helped build his firm's legacy. But his ability to connect the dots continues to inform what we do today and how we strategize for the future. Ever the visionary, Dale remains excited about what's next for our city, state and community.
