

ABOUT IMPACT AWARDS

One of the Urban Land Institute's guiding principles is that the achievement of excellence in land use practice should be recognized and rewarded. ULI Austin's annual Impact Awards are an opportunity to recognize and celebrate projects and people throughout Greater Austin that exemplify ULI's mission: to shape the future of the built environment for transformative impact in communities worldwide.

NEXT BIG IDEA CRITERIA

This award goes to an upcoming project, master planning effort, redevelopment, program, policy, or 'idea' that will transform our industry and our community. We seek innovative ideas that can positively impact the region's quality of life, such as improving the quality of the built environment, the way in which planning and development are conducted, construction affordability, financing or other aspects of development.

- The Next Big Idea does not have to be a project, nor is it required to be completed. (If you are submitting a completed project, the Completed Projects application may be more applicable).
- Exemplifies ULI's mission to shape the future of the built environment for transformative impact in communities worldwide.
- The Next Big Idea can either directly impact the Greater Austin Area OR be submitted by a firm with a presence in the Greater Austin Area that positively impacts the industry or another community.
- Achieves excellence through the application of industry best practices.
- Is financially feasible.
